#### COMPLIANCE TRAINING WITH CAERPHILLY FUNERAL SERVICES.

#### IN THIS ISSUE

The first quarter of 2016 has been a busy one. I would like to share with you a few of the highlights from just 3 months into the year. 2016 has seen R4U Ltd develop into a leader of compliance training and consultation. We are helping you to understand best practice and address the critical issues affecting the governance, risk and compliance within companies, organisations and communities today.

A forward thinker, **Dean Thomas the Director of Caerphilly Funeral Services 02920 862 100** and his staff work closely with R4U Ltd to meet key objectives of compliance training and this ensures:

- That employees are aware of their compliance responsibilities;
- Mitigates the risk of compliance breaches;
- Encourages a better workplace culture;
- Protection for the organisation's reputation.

With regulators, Local Authorities and the HSE citing lack of training and understanding as reasons behind compliance failings, organisations are under increasing pressure to deliver accurate, engaging and cost-effective training, whilst also evidencing understanding and completion through up to date certification.
